

AQUOLAC PAINTS

AQUOLITE RED OXIDE METAL PRIMER

Aquolite Red-oxide Metal Primer is based on high performance medium and corrosion resisting pigments to form an excellent primer for all types of steel and iron surfaces. It meets the demands of a low cost primer with anti-corrosive and very quick drying properties. It is water-proof weatherproof with high covering capacity and has very good adhesion and flexibility properties making it an ideal base coat for a finishing coat.

Uses : On steel surfaces, properly cleaned and degreased.

Finish : Matt or Eggshell

Application : Brush / Spray

Covering Capacity : 18 to 20 sq. meter per Ltr.per coat

Flash Point : Above 30°C

Drying Time :

Surface Dry : 2 hours

Hard Dry : 6-8 hours

Packing : 20 Ltrs., 4 Ltrs., 1 Ltr., 500 ml
